Passionate and driven AI & Data Science enthusiast with practical experience in Python, data preprocessing, LLM-powered chatbots (LangChain), and building intelligent applications using tools like Streamlit. Adept at creating solutions that merge machine learning models with user-friendly interfaces to solve real-world problems. Currently pursuing a Bachelor's degree at Sukkur IBA (Class of 2025), with a strong focus on developing projects that bring AI to life in meaningful ways. In addition to my AI journey, I bring over a year of experience in: WordPress Development – Building and managing dynamic, client-focused websites. Eager to contribute to innovative AI and Data Science projects in a collaborative environment, while continuously learning and growing in the tech space.
